

STATEMENT OF WORK
Shallow Water Development and Management (646)
Delaware

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documentation that will demonstrate that the criteria in the NRCS practice standard have been met and are compatible with other planned and applied practices.
2. Practice purpose(s) as identified in the conservation plan.
3. List of required permits to be obtained by the client.
4. List of facilitating practices. (e.g., dike (356), structure for water control (587))
5. Practice standard criteria-related inventories and analyses to develop shallow water management plans for targeted wildlife species and specifications including but not limited to:
 - a. Soil suitability.
 - b. Adequate water supply.
6. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits as documented on the 646 Implementation Requirements document.
7. Certifications that the design meets practice standard criteria and comply with applicable laws and regulations as documented on the 646 Implementation Requirements document.
8. Design modifications during installation as required.

Note: *State-Specific deliverables may be added as appropriate.*

INSTALLATION

Deliverables

1. Application guidance as needed.
2. Facilitate and implement required design modifications with client and original designer.
3. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
4. Certification that the application process meets design and permit requirements documented on the on the 646 Implementation Requirements document.

Note: *State-Specific deliverables may be added as appropriate.*

CHECK OUT

Deliverables

1. As-built documentation:
 - a. Extent of practice units applied.
 - b. Actual water and/or vegetation management to meet targeted standard criteria.
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits on the 646 Implementation Requirements document.
3. Progress reporting.

Note: *State-Specific deliverables may be added as appropriate.*
